

## High-Level Policy Dialogue on Inclusive & Resilient Decentralisation and Local Governance Reforms & Institutions

**The Development Partners Network on Decentralisation & Local Governance (DeLoG) will open this year's Annual Meeting on Inclusive and Resilient Decentralisation and Local Governance Reforms and Institutions with a High-Level Policy Dialogue open to the public.**

The 2030 Agenda calls for effective, transparent, accountable and inclusive institutions at all levels (SDG 16) and encourages the creation of meaningful multi-stakeholder partnerships (SDG17). Its core principle of “Leaving No One Behind” guides actors and stakeholders involved in decentralisation and local governance (DLG) reform processes and in the localisation of the SDGs. The local level is crucial for addressing the challenges and opportunities of our time. The growing need for dialogue surrounding this subject is reflected in [DeLoG's Strategy 2021-2024](#).

Over the last few years, and especially since the outbreak of COVID-19, the environment and the global agendas on DLG have changed and adapted. DLG approaches are under pressure from social, economic, ecological and political challenges. The provision of equal and secure access to public services is a core responsibility of Local and Regional Governments (LRGs). Clearly defined functions and mandates as well as access to finance are necessary prerequisites to enable LRGs to fully meet their responsibilities.

This High-Level Opening event sets the scene for this year's DeLoG Annual Meeting by providing room for policy dialogue among members and partners to exchange on their strategic shifts and priorities. The key question to be addressed will be *how the support for inclusive and resilient DLG institutions is evolving in the face of current global challenges and what role partnerships and networks like DeLoG may play in future*.

The event will be held via the platform “Microsoft Teams”. To register, please click [here](#). In case of questions, please contact [info@delog.org](mailto:info@delog.org).

### 13<sup>th</sup> September 2021 – High-Level Policy Dialogue
